1. The following changes to the drawings have been approved by the examiner:

The drawings must be labelled in some manner to illustrate the claimed "control means" of independent claims 18 and 22 in order to comply with 37 CFR §1.83(a). A labelled box would be adequate. The Examiner attempted to contact Applicant's attorney, Mr. Michael E. Whitham on the morning of 03 January 2008 to inform him of this correction, but he was not available. The Examiner left a detailed message on the voicemail for Mr. Whitham's office explaining the change needed and explaining that it would be set forth in this communication with the Notice of Allowability. Correction is hereby **required** within the period for response to this Office Action.

2. In order to avoid abandonment of the application, applicant must make these drawing changes.

3. The following is an examiner's statement of reasons for allowance:

None of the prior art of record either taken alone or taken in any possible combination would anticipate or would tend to render obvious Applicant's claimed apparatus as set forth in independent claim 12 that is particularly characterized at least by the claimed "receiving antenna array ..." as described on lines 6-12 of independent claim 12 taken in the overall context of independent claim 12.

Dependent claims 13-17 are allowable for at least the reasons for which independent claim 12 is allowable.

None of the prior art of record either taken alone or taken in any possible combination would anticipate or would tend to render obvious Applicant's claimed apparatus as set forth in independent claim 18 that is particularly characterized at

least by the claimed "receiving antenna array ..." as described on lines 8-11 of independent claim 18 and the claimed "control means ..." as described on lines 12-17 of independent claim 18 taken together and taken in the overall context of independent claim 18.

Dependent claims 19-21 and 25 are allowable for at least the reasons for which independent claim 18 is allowable.

None of the prior art of record either taken alone or taken in any possible combination would anticipate or would tend to render obvious Applicant's claimed apparatus as set forth in independent claim 22 that is particularly characterized at least by the claimed "receiving antenna array ..." as described on lines 12-15 and 22-24 of independent claim 22 and the claimed "control means ..." as described on lines 16-21 of independent claim 22 taken together and taken in the overall context of independent claim 22.

Dependent claims 23-24 are allowable for at least the reasons for which independent claim 22 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
